

Dear SME Chapter 79 Members,

Hello Chapter 79 Members, my name is Matthew Maj new Chairman for 2008. I wish everyone a Happy New Year.

As chairman I am really excited to have this opportunity to be Chairman and I have a couple of goals for the 2008 Term. First, I look forward to meeting and making new friends with the new and current members. Second, I will work hard to get more involvement from members to help expand the Executive team. We are always looking for some help because it is a great learning experience. And last, I plan to look into the future of Manufacturing for some new and exciting Events and Technical meetings.

Well I can't wait for this year of events to begin and I hope you are thinking the same. Its time for manufacturing to shine in the spot light and it will start move with the help of our SME members.

Chairman of SME Chapter 79  
Matthew Maj
