

Ann Arbor Area – Chapter #079

February 2, 2009

***Executive Committee
Meeting***

Saline Lectronics, Inc.
710 N Maple Rd
Saline, MI 48176

Tuesday, February 3

6:00 - 8:30 PM

Dear Members and Friends of SME Chapter 079:

As we wait for the economy to turn around and the unemployment to drop, we need to have a good hold on manufacturing. With these bad times upon us this should give us opportunity to take our creative minds and help the future of manufacturing rise to a higher level. As members of SME it is our goal to help all engineers and upcoming engineers be involved with manufacturing. It is never late to join SME and become a member by visiting SME.org.

On January 22, we had an excellent technical presentation, combined with a tour of the American Tool facility in Jackson, Michigan. There was a good turn-out, and all who attended were very impressed with American Tools' capability, and found the presentation on Large Die and Stamping operations interesting and informative.

On February 19, we have a Technical Presentation and Plant Tour scheduled at Recellular Inc. in Dexter, Michigan. Full details about this meeting are included on the website. If you would like to attend, please RSVP to smechapter79@gmail.com. We look forward to seeing you there.

Hope to see everyone at the up coming Technical events. We will continue to have interesting and thought provoking events throughout the remainder of the year. Invite a friend to join you on one of the tours and make sure to check the website for any changes.

Please check our Website for news and updates.

Sincerely,

Matthew Maj
Chairman, SME Chapter 079
