

July 25, 1945

Mr. Frank Fenton
Director of Organization
American Federation of Labor
Room 409
A.F. of L. Building
Washington 1, D. C.

Dear Frank:

Quoted below is a paragraph from one of our recent field reports in which I thought you might be interested:

"International Association of Machinists - A.F.L. Lodge #1047. Briefly outlined the Union Job Relations program to Mr. Hubert Owen, Business Representative of this Lodge. Mr. Owen is in the middle of contract negotiations with the Kaiser Steel Forging Plant. It was interesting to note that after 18 months of elapsed time Mr. Owen was using a very dilapidated JR card. He stated that he used this card in all contract negotiations and collective bargaining. We are to see Mr. Owen again the last week in July to present the Union Job Relations preview to his executive board."

Attached hereto is a copy of the JR card referred to above. I know you have seen it before, but I know also how these things get misplaced.

Very sincerely yours,

C. R. Dooley
Director
Training Within Industry
