Chairman's Message

After helping to inaugurate Chap 219 in 1974, where we hold the record (no one has yet to break our record) for having more than 80 members to inaugurate a Chapter, I am fortunate to be given the opportunity to manage the Chapter in difficult times. For the last several years, the Chapter's funds, memberships and activities have been on the downhill trend. I would like to reverse this trend and look forward to more people coming forward to help us meet our objectives. My plans (some of which are already in motion prior to my official appointment) for the year are:

1. Monthly technical talks.
2. At least two seminars for the year.
3. Start a bi-monthly newsletter to inform members of past and future events/activities, membership updates, technical articles, etc.
4. Recruit sponsors as we need funds to operate.
5. Improve membership value by providing more privileges. Effort are in progress to make arrangement (in principle agreed upon) for our members to receive complimentary copy of Equipment News Magazine. The management committee will look into adding more benefits to the list.
6. Stress more on membership retention and recruit more industry people as they are badly needed in our management committee. We need new ideas and contributions.

If you are able to help/contribute (physically and financially), please give me a call at 96305817. You will be helping your own society, i.e. Chap 219, to become better.

Technical Talks Held :

1. **“ Dynamic Feed Hot Runner System “**
Thursday, 5 June 2003
Synventive Molding Solutions Pte Ltd
