Production Floor Automation

Presented by Mr. Darren Proctor of Tek-Know, LLC.

Mr. Proctor started Tek-Know 4 years ago and they specialize in designing and programming custom automation projects. Tek-Know was designed to help with off systems that could not be commercially reproduced as a line item product, i.e. adding new controls to an old system when it may not be feasible to purchase a new piece of equipment. Mr. Proctor will be talking about how compact line level vision inspection systems are making their way to the lines, how vision systems work & how they may be used in the plant. Real-time part measurement, label placement, present/absence will be demonstrated using the compact DVT vision system.

*For a reservation contact James Sutton @ (417) 829-5392 or
j_sutton@littoninterconnect.com*

Location:

***Holiday Inn – North
2720 N. Glenstone at I-44
