Lean Manufacturing Network

Glenn Gee of the WCIEDD is hosting a monthly forum for Lean Manufacturing.

Meetings are held on the third Wednesday of the month from 8:00am to 10:00am. The location of the meetings is at the Ivy Tech State College Airport campus. Attendance is free.

Time will be available for network members to share and to learn a variety of lean techniques. There will be one technique or method emphasized per month. Examples include: Muda (the 7 wastes), Value stream mapping, Just-in-time philosophy, Kanban, Poka-Yoke, 5S (workplace organization), Zero Quality Control, Source inspection, One-piece flow, Cellular flow, Total productive maintenance, visual workplace, quick changeover, and Kaizen Blitz events. Other topics in lean manufacturing are welcomed. Plant tours of certain network members plus special workshops in Lean Manufacturing are possibilities.

The Lean Manufacturing network promises to present an exciting opportunity for all interested individuals to learn how to improve their operations, and to become more competitive in the global marketplace. If you have any questions, feel free to contact Glenn Gee at (812) 234-0305 or ggee@abcs.com.
